Division, P.O. Box 11299, Salt Lake City, Utah 84147, to

Range 2 West,; Township 3 South, Range 1 West,; Township 3

known as the Bingham Canyon Mine. Representing Ken-
necott Copper Corporation in this matter is Mr. B.B. Smith,
General Manager, P.O. Box 11299, Salt Lake City, Utah.

The Utah Copper Division of Kennecott Copper Cor-
poration has fulfilled obligations under the Mined Land
Reclamation Act of 1975 (Sec. 40-8, U.C.A., 1953, as amen-
ded), and will employ the following reclamation techniques
on approximately 23,000 acres which comprises the land
affected.

During Operations:

- 1) Rock waste will be deposited in designated locations.
- 2) Open pit rock slopes will be stabilized by main-
taining overall slopes between 25 degrees to 29 degrees from
horizontal with intermittent benching.
- 3) Pit discharge water will be processed and
neutralized, impounded, utilized, or receive safe disposition.
- 4) Tests will be conducted to determine possible
methods for establishment and types of vegetation suitable
or establishment on some dump areas.
- 5) When excess mine water is present, such water will
be contained in ponds for evaporation.
- 6) Tailings will be contained in a designated pond with
slopes maintained in a stable condition.

After Operations:

- 1) Unusable buildings, scrap lumber, and metal, and
trash will be disposed of from all areas of the land affected.
 - 2) Open pit rock slopes will be stabilized by abandoning
slopes ranging from 32 degrees to 37 degrees.
 - 3) Revegetation for site stabilization will be performed
in specified areas of the land affected where found by testing
to be technically and economically feasible.
 - 4) Specific alternatives for eventual use of all portions
of the land affected which have been submitted in the
reclamation plan, will be considered upon abandonment.
- Reclamation performance surety will be established upon
final approval of the reclamation plan.

Any person or agency aggrieved by this tentative decision
is hereby requested to submit written protest within 30 days
of September 17, 1976, to the Division of Oil, Gas, and
